Jan/Terrie,

Starting to develop agenda for May 11th meeting and wanted to see if you had any specific topics you wanted covered.

I am asking EPA folks now and will compile what I hear and send out an agenda next week.

Thanks.

Hi Michael,
May 11th at 9-11 works for me and Terrie.
To answer your earlier question, yes, it would be great to include Dick Feely.
best,
Jan

Jan,

Just found out that May 13th is not a good date for several people here as they are in a training.

How about Monday May 11th from 9-11?

If not could we look at the week of May 25th?

Thanks. Scheduling can be a challenge.

Can we tentatively set May 13th from 9-11 at the EPA office at 6th and University?

Also, would you mind if we invited Dick Feely to attend, if he is available. We thought it would be good to also understand better the work NOAA is doing related to OA.

Thanks.

Hi Mike,
Yes, thanks, it was great seeing you as well. Thank you for your email

and great idea.

Terrie Klinger (cc'd here) and I would most definitely appreciate the opportunity to meet with you all again, to update you on the work the Washington OA Center is doing.

Let me circle with Terrie and a few other key WOAC people, like the postdoc you mentioned, to find optimal times. Fortunately I am around those two weeks, excepting 15, 18, 19 May.

Best regards,
Jan

Jan,

Good to see you at the OA meeting last Wednesday.

As you may recall we had a meeting in August last year where you came to EPA's offices and we discussed work you and your colleagues were doing. We specifically discussed a post-doc that you were hiring to work on OA issues.

A lot has happened since August and we thought it would be good to reconvene to discuss both our recent work and our potential participation in a meeting you are having at the end of May at the UW.

We were thinking of trying to find a time during the weeks of May 11th or May 18th to meet.

Are there any times during those weeks that would work for you?

Thanks.
